

HANAFINN™

Sealing solutions for beautiful surfaces

Oxy-Klenza™

Oxy-Klenza™ is a powerful oxygen-based, chlorine free cleaner for inside/outside, and residential/commercial applications. It is a multi-purpose cleaner that breaks down organic stains and soiling. Oxy-Klenza™ is ideal for cleaning patios, kitchens, bathrooms, decks, floors, building facades, walls, cladding, public spaces, swimming pool surrounds, garages, driveways, eating and entertaining areas.

Typical Applications

Oxy-Klenza™ is a powerful alkaline cleaner (typically pH 9-11) for tough dried-in stains and soiling, including grease, mold, algae and leaf marks. It is safe for use on natural stone, tile, masonry, concrete, grout, vinyl and unfinished wood.

Benefits

Oxy-Klenza™ is a powder concentrate that goes further and is safer to transport / store. It also disinfects and breaks down odors. Oxy-Klenza™ is biodegradable – decomposing into oxygen, water and natural salts.

Application rates:

Typical usage rate is 2/3 of a standard cup Oxy-Klenza™ per 100 sq. ft (10 sq. m), depending on surface conditions.

Precautions

- Do not take internally.
- Apply when surface temperature is between 40 – 95 °F (5 – 35 °C).
- Protect surrounding areas and clothing from product contact. Avoid contact with metals.
- Keep away from plants, water and soil.
- Once mixed, solution should NOT be left in a sealed container. It will continue to give off oxygen and the container may rupture and cause injury.

- Dispose of all unused solution after 4 hours by pouring into a drain or toilet.
- Wear suitable solvent resistant gloves, protective clothing and safety goggles during application.
- Wash hands thoroughly after applying.

Safety Directions

DO NOT smoke. Avoid sources of ignition. Avoid contact with eyes and skin. Avoid breathing vapor or spray mist. Take up spillage mechanically

First Aid

If swallowed, contact a physician. DO NOT induce vomiting. If skin contact occurs remove contaminated clothing and wash skin thoroughly. If irritation persists, contact a physician. If in eyes, hold open, flood with water for at least 15 minutes and contact a physician. If breathed vapors or mist relocate to fresh air. If symptoms persist contact a physician.

Pack Size

2.2 lb (1 kg) and 22 lb (10 kg) plastic container

Storage

Keep container tightly sealed in a cool, dry and well ventilated place

How to Use:

Method One:

- 1. TEST PRODUCT ON A SMALL AREA BEFORE FULL APPLICATION.**
2. If satisfied with test results; for heavy cleaning prepare product by stirring 2/3 of a standard cup of Oxy-Klenza™ into a plastic bucket filled with 2 ½ Gallons (10 liters) of clean warm water until it dissolves.
3. For light cleaning prepare product by stirring 1/3 of a standard cup of Oxy-Klenza™ into a plastic bucket filled with 2 ½ Gallons (10 liters) of clean warm water until it dissolves.
4. Apply solution generously with a mop or plastic watering can and leave for 5 to 15 minutes. Do not allow solution to dry on surface (large areas can be cleaned in sections). Use a mop or sponge to clean the surface. Heavily soiled areas should be gently scrubbed with a soft brush.
5. Typical usage rate of 2/3 standard cup Oxy-Klenza™ per 200 sq. ft (20 sq. m), depending on surface conditions.
6. Repeat application if required.
7. Rinse surface thoroughly with clean water.

Method Two:

- 1. TEST PRODUCT ON A SMALL AREA BEFORE FULL APPLICATION.**
2. If satisfied with test results prepare surface for full application by sweeping or vacuuming all loose dust and dirt from the surface.
3. Thoroughly wet the surface with water. Large areas should be cleaned in sections.
4. Lightly sprinkle Oxy-Klenza™ onto the wet surface and leave for 5 to 15 minutes. Do not allow solution to dry on surface. Use a mop or sponge to clean the surface. Heavily soiled areas should be gently scrubbed with a soft brush. Excess powder will dissolve by scrubbing.
5. Typical usage rate of one cup Oxy-Klenza™ per 100 sq. ft (10 sq. m), depending on surface conditions.
6. Repeat application if required.
7. Rinse surface thoroughly with clean water.

Advanced Tips:

1. Oxy-Klenza™ can be mixed into a paste with a little water and used to make a poultice to remove deep stains from countertops. Refer to the Poultice Cleaning Method sheet for details.
2. Oxy-Klenza™ can be used to disinfect artificial turf.
 - Oxy-Klenza™ qualifies for LEED 2009 IEQ Credit 3.3: Green Cleaning - Purchase of Sustainable Cleaning Products and Materials 1 Point.
