With MEMORIES, designing with ceramic tiles couldn't be easier. The collection takes a small square of ceramic and reinterprets it in countless ways, exploiting patterns, designs and colours to create a distinctive element that stands out in any space. The world of MEMORIES consists of stylistic solutions inspired by traditional cement and majolica tiles, as well as sophisticated, cutting edge contemporary design offerings. Available in a single 20x20 cm size, MEMORIES porcelain tiles are ideal for a wide range of applications. In residential spaces they enhance the appeal of bathroom and kitchen floors and walls, while in public and commercial contexts they create a decorative surface ideal for any project.

MATCHING MATERIALS

The PLAY collection brings a light-hearted, decorative touch to contemporary spaces. The vintage texture, geometric patterns and optical effects coupled with a versatile and heterogeneous colour palette are specially designed to meet the most diverse stylistic and design requirements. The numerous graphic versions allow for novel Mix&Match solutions with the material effects contained in the ABK catalogue, from large slabs and wood effect planks through to more conventional tile sizes.
