# EXTREMELY DECORATIVE AND NATURAL

## NATURAL AND

## EXTREMELY DECORATIVE

With a rich, authentic allure, the Montpellier series takes its inspiration from the stone recovered from centuries-old French castles, faithfully reproducing the idea of a material that travels through time to gain a new lease of life in the present. Every detail, from the uneven edges to the graphics, is faithfully reproduced to create a naturally beautiful collection. The series comprises 3 sizes that can be combined to offer a greater variety of laying options, and comes in 4 warm and cool shades for intense shaded effects.

The uneven surfaces reflect the signs the passage of time leaves behind, adding extra charm and warmth to the ceramic material, which is especially suitable for modern, sophisticated settings. The series is complemented with a decoration that has a romantic, retro allure, in warm, dusty shades. Particular attention has been paid to the outdoor version, available in the 60.4x90.6 size, in both the classic 10 mm-thick version with rectified edges and in the 20 mm-thick version with shaped edges: a single aspect becomes the detail that brings an authentic finish to complete the collection.
