A protagonist of the new architectural culture, it is the image of a rapidly evolving natural and eclectic matter: with Cotto Toscana, terracotta gracefully and easily reveals its most avant-garde character.

# COTTO TOSCANA

*Natural eclecticism*

COTTO TOSCANA

# Terracotta ceramics for architecture

*Cotto Toscana reintroduces terracotta ceramics suitable for indoor and outdoor use, to be interpreted according to new architectural languages. With a 10 mm thick surface system, the collection displays a rich mashup of earthy colours, besides mixed cement tile decorations.*

*A set of masterfully diverse formats enables to make the most of natural finishes without compromising on stain resistance and impermeability. The 40x60.8 format is also available in the outdoor version (R11).*

COTTO TOSCANA

# A fusion of styles for exclusive living

*Thanks to ceramic technology, the terracotta of contemporary living reaches city lofts and sky view terraces: whether in urban landscapes or in swimming pools immersed in greenery, it accommodates airy and organic textile accessories, ethnic motifs and essential decor.*

# Sophisticated material versatility

*Both in fluidly contiguous indoor and outdoor spaces, and combined with the rest of CIR's offer for a multi-material look, Cotto Toscana displays refined aesthetic and functional aspects.*

# Modular richness

*All the decorative value of clay varieties is expressed through patterns which are never repetitive thanks to a modular mould and double multi-format laying.*

COTTO TOSCANA

# Multi-format creativity

*Multi-format laying makes use of four formats for six pieces, to be combined according to two flooring pattern options.*
